Rotary Integration

Opt-in must be done in two places: RI and ClubRunner

1) Link to RI

RI Database Integration

We are pleased to announce that RI Database Integration is now available on ClubRunner! This new feature will automatically update member records at Rotary International Headquarters within 2 hours of being updated on ClubRunner, using API integration. For help information [click here](#).

In order to begin using this feature, there are **two steps** that need to be completed by your club:

1. **Opt in at Rotary International's Member Portal.** Login as a club officer and look for the Partner Organization link. Select ClubRunner as your authorized partner and follow the steps outlined within that page to agree to the terms and conditions. Here is a direct link to that page:

<http://www.rotary.org/en/secureselfservice/Pages/AddVendorOrganization.aspx>

2. **Opt in by selecting the checkbox below.** Note that once you do this, ClubRunner will begin to transmit your member information updates to Rotary International as soon as any changes are made to your active members' profiles, whether the change was made by the member or a club executive.

2) Checkbox to opt in

☒ Switch on Data Integration between ClubRunner and RI for all active member records within my club.

Note that all members will now be set to opt into the fields the club has selected below. Any members who wish to opt out of specific fields can update their preferences under the Privacy tab of their profile.

I agree to the [Terms and Conditions](#) of this integration.
